Montreal, Canada · PIPEDA Compliant · Post-Quantum Certified

Made with **GAMMA**

Justice is a Luxury. Fraud is Exploding.

\$40B

Deepfake Fraud by 2027

\$5.9B

KYC Fraud Last Year

\$25B+

Legal Tech Market

80%

Victims Give Up

Deepfake fraud is accelerating while **KYC systems** remain vulnerable. The **legal tech market** is expanding, yet **most victims abandon pursuit** — proving fraud is not enough without accessible justice.

⚠ THE GAP

Even When You Prove Fraud, Justice Remains Inaccessible

Lawyers cost \$300/hour

Civil lawsuits run \$10,000+

Technical proof exists — but
justice does not follow

- ❑ The problem is not detection.
The problem is **access to legal recourse**.

The DUXIA Ecosystem

Three interconnected layers — from forensic detection to legal action to financial protection — forming a complete trust infrastructure.

DUXIA — Available Now

AI Forensic OS • 14 signals • <2 min/report • PQC certified

The medical scanner

Lex — 2027

Auto legal analysis • 30+ countries • Lawyer matching

The doctor who prescribes

TrustLayer — 2028

Legal fee coverage • Verified lawyers • Contingency payment

Health insurance for justice

DUXIA OS AI

Multimodal Forensic Verification

Documents, Audio, Video, Images, and Identity — all verified in a single platform.

14 Forensic Signals

Metadata, pixel consistency, fonts, signatures, structure, and deepfake detection working in concert.

Post-Quantum Certified

ML-DSA-65 (NIST FIPS 204) — future-proof cryptographic certification.

Enterprise Integrations

Microsoft 365, Salesforce, Google Workspace, HubSpot, Zapier, Make. Hosted in Montreal (PIPEDA, sovereign).

Live Traction

The Only Complete Trust Stack

Every competitor addresses a fragment. DUXIA is the only platform that **detects, certifies, litigates, and insures** — end to end.

❏ No other player combines forensic AI, post-quantum certification, legal automation, and insurance coverage in a single ecosystem.
